Django (REST Framework), React, React Native, Bootstrap, Tailwind CSS
- **Web & Mobile Development:**
Web Applications, Mobile Application Platforms, Web Interactive Design, REST API Integration
- **Databases:**
PostgreSQL, MySQL, SQLite
- **Tools & Environments:**
VS Code, Android Studio, Thunder Client
- **Version Control:**
Git, GitHub
- **Software Engineering Practices:**
UML Design, Software Quality Assurance, Software Documentation Control, Requirements Gathering & Analysis, Code & Quality Standards, Data Structures & Algorithms

Soft Skills

- Analytical Thinking & Problem Solving, Communication, Time Management & Organization, Reliability, Training, Management.

Other Competencies

- Web Technologies, Information & Communication Technology (ICT),
- Software Development, Programming Fundamentals, Database Management

WORK EXPERIENCE

Software Engineer | Freelancer

Morogoro, Tanzania.

23/11/2023 – Current

PROJECT NAME: EARN APP/ PAYME

SUMMARY: A digital platform where users watch videos, submit reviews, and earn money for engagement. Tracks user activity and handles reward payouts.

ROLES: Developed full-stack, built backend APIs, implemented payment integration, and maintained database schema

TECHS: Django, React, PostgreSQL.

PROJECT NAME: INVENTORY, SALES, AND EXPENSES MANAGEMENT SYSTEM

SUMMARY: Manages medicine stock, sales, and expenses; tracks inventory and provides analytics for pharmacy owners.

ROLES: Backend and frontend development, database design, sales, and inventory tracking modules.

TECHS: Django, PostgreSQL.

PROJECT NAME: DIGITAL PLATFORM FOR SHARING TOOLS AND SKILLS

SUMMARY: A platform enabling users to share and rent tools or offer skills to others, promoting resource efficiency and community collaboration.

ROLES: Full-stack development, backend API creation, and frontend interface design.

TECHS: Django, React, PostgreSQL.

PROJECT NAME: CONTRIBUTION AND PLEDGE APP

SUMMARY: An app for tracking community contributions and pledges, providing transparency and accountability for donations.

ROLES: Full-stack development, backend API creation, and frontend interface design.

TECHS: Django, React, React Native, PostgreSQL.

PROJECT NAME: POULTRY, CONCRETE, AND LOGISTICS TRACKER APP

SUMMARY: Tracks operations and logistics in poultry farming, concrete production, and delivery management.

ROLES: Full-stack development, backend API creation, and frontend interface design.

TECHS: Django, React Native, PostgreSQL.

PROJECT NAME: DIGITAL PLATFORM FOR SHARING TOOLS AND SKILL

SUMMARY: A platform that enables the street chairman to notify residents to deposit their waste at designated dump sites and informs waste collectors when collection is ready, improving efficiency in community sanitation management.

ROLES: Full-Stack development, real-time notification system.

TECHS: Django, PostgreSQL.

Field Student | VLRIIOUS - MZUMBE UNIVERSITY

Morogoro, Tanzania

8/2022 – 10/2022 | 7/2023 – 9/2023

- Provided technical assistance to the staff.
- Configured file sharing on the Windows server.
- Developed the field training management and tracking system
- Developed a mu-updates system that notifies students about university events.
- I participated in the training on preparing and creating an effective podcast.
